

EDGAR EMILIO VALLEJO JUÁREZ

e-emilio@hotmail.com • Guatemala City

PROFESSIONAL SUMMARY

Software engineer and team lead with 6+ years of experience leading a team of 5 engineers, building scalable backend systems, REST APIs and working on data transformation with C#, Python, JavaScript and PHP. Achieving up to 85% reduction in operational processing time through automation. Full-stack development with Agile/Scrum and strong English proficiency.

TECHNICAL SKILLS

Languages: Python 3.x, C#, JavaScript, PHP, Visual Basic .NET

Frontend: React, HTML5, CSS3, .NET

Databases: PostgreSQL, MS-SQL Server, MySQL

DevOps & Cloud: AWS, CD/CI, Azure DevOps

Tools & Other: Git, UiPath (RPA), OpenAPI, Scrum/Agile

PROFESSIONAL EXPERIENCE

Team Lead & Software Engineer – Allied Global

March 2020 – April 2026

Backend & Full-Stack Development

- Developed automation and REST API integrations to synchronize data across 50+ external web platforms, eliminating manual entry bottlenecks and reducing processing overhead.
- Built and maintained web scraping pipelines for large-scale investment banking data extraction, transformation, and loading, working closely with SQL Server databases.
- Engineered an AI driven news aggregation platform with a C# web-scraping backend and a React front-end.
- Integrated AI tooling into the development lifecycle to accelerate delivery and code quality across the team.

Robot Process Automation (RPA)

- Gathered client requirements and engineered end-to-end automation solutions using UiPath, achieving up to 85% reduction in operational processing time.
- Designed automated workflows integrating MySQL databases with UiPath and Visual Basic .NET.

Stack: Python – React – C# – MS-SQL Server – MySQL – REST APIs – PHP – Azure DevOps – JavaScript – Git – Scrum – UiPath

IT Engineer Intern – Huawei

January 2019 – July 2019

- Managed switch configurations and performed hardware/software upgrades on compute nodes across multiple data centers.

Systems Analyst Intern – PepsiCo

January 2018 – November 2018

- Designed a storage and distribution system for cold-equipment management in warehouses as part of a multidisciplinary engineering team.

Android Developer Intern – Huawei Technologies

- Android application using Java, MySQL, AWS (RDS) and Android Studio that obtains user satisfaction regarding signal quality, uploading the information to RDS.

Web Developer Intern – XumaK

- Animations using GSAP and ScrollMagic (HTML and JavaScript), backend development using PHP within WordPress.

EDUCATION

Postgraduate Degree in Information Systems

Galileo University – 2022–2022

B.S. in Systems Engineering and Computer Science

Istmo University (UNIS) – 2015–2019

CERTIFICATIONS

- **Python Intermediate** (September 2026) - Sololearn

- **Claude Code 101** (May 2026) – Anthropic Academy
- **Claude 101** (May 2026) – Anthropic Academy
- **Angular** (August 2024) – Sololearn
- **AWS: Solutions Architect** (March 2022) – Charles Sturt University
- **Six Sigma Yellow Belt** (February 2022) – 6sigmastudy

LANGUAGES

Spanish: Native

English: Advanced

German: Basic
